300 hours to test for Black Belt!

what Master Clark should see when he looks at the students; and what we want to see:

Top 3 things

1. Each technique correct - Proper technique - start proper position / end proper position!  
Endurance! good cardio - 2. Fitness level
3. Performance / Knowledge they know what they are supposed to do.  
A. Sparring - Do they block / counter right time / distance - distractions - crossing the gap -

What do instructors expect of their students:

1. To break 1<sup>st</sup> time! Break board you practice on. All my students should break. How do you control holders; center judge needs to bring holders who know from their school.
2. 100% of students who show up should be ready and should pass!

What do you expect of the whole demo? (what should the parents feel).

1. Synchronization
2. Organized / practiced

Demo: how you look / engage the parents / how you engage the students - the whole day is a demo - from what you wear walking in until you leave! your uniforms / hair / make up, etc... this is the day for your students!

- What do you do in the laytime?? when you're not teaching class?

Plan for next year: reconsider your model to make sure it works for you to achieve financial freedom.
