

Monday, August 6, 2012

It may take seeing your ads/signs many times before people will call or come in.

We've heard no so many times we don't know how to deal with yes. We don't push ourselves & risk failure.

People will judge you by how you look, and how your school looks. Be aware of how you look, smell, act, etc.

Mission Statement for August (write something for your school)

- Is it based on financial success, service, enrollments?
- Does your mission statement allow you to have your perfect day? Or does it conflict? A perfect day every day = a perfect life.
- Your mission statement should follow your model.

Have you made progress toward your model?

Your model should help you to gain financial freedom & a certain amount of free time. The school should be able to operate w/out you.

All forms start & end at home - Songahm philosophy
